

# PRESENTATION FOR PARENTS, CARERS & EDUCATORS

ThinkUKnow Australia provides free presentations to parents, carers and educators through school and community groups to raise awareness of online child sexual exploitation. These presentations will provide you with the tools to create a safer online environment for children and young people, and empower you to feel confident in guiding them as they access the internet and use technology.

## OUR PRESENTERS

Presentations are delivered locally by our network of volunteers from industry partners and police.

Volunteers come from a variety of backgrounds including information technology, investigations, crime prevention and community policing.

## WHAT WE TALK ABOUT

Our presentations provide information on the technologies children and young people use, the challenges they may face, and importantly, how they can be overcome.

Topics discussed in our presentations educate and increase awareness about online child sexual exploitation.

### These include:

- Privacy and preventing inappropriate contact
- Sharing your child's information
- Self-generated content
- Online grooming
- Image-based abuse
- Sexual extortion
- Signs of online child sexual exploitation
- Taking action
- How to get help.

## AUDIENCE

Our presentations are for parents and carers of both primary school and high school aged children.

Due to the nature of the topics discussed, this presentation is not suitable for children. If your child has to attend the presentation we suggest speaking to the organiser to see if arrangements can be made for someone to look after them in another room.

## ADDITIONAL RESOURCES

We have a number of complementary [resources](#) including home learning activities, fact sheets and a Family Online Safety Contract which are designed to provide further learning at home.

These resources complement our presentations, but can also be used at home with your child if you are unable to attend.

We encourage you to contact your child's school to request they [book one of our presentations](#).

We invite schools to submit an [Expression of Interest](#) here for a ThinkUKnow Australia session.
